ROYAL BAKING POWDER

Thousands of millions of cans of Royal Baking Powder have been used in making bread, biscuit and cake in this country, and every housekeeper using it has rested in perfect confidence that her food would be light, sweet, and perfectly wholesome. Royal is a safeguard against the cheap alum powders which are the greatest menaces to health of the present day.

COL. C. J. BRONSTON

Dies Suddenly From Heart Disease at Lexington.

Col. C. J. Bronston, aged 60 years, leading business man, lawyer, ex-member of the Legislature, and chairman of the Democratic County and City Committee, died suddenly at Lexington Thursday morning April 15th.

On Wednesday morning Col. Bronston suffered a severe attack of heart trouble and physicians were called. Soon a change for the better took place. At 12 o'clock he suffered a relapse. In a few hours he improved again and continued to improve until at 9:30 o'clock Wednesday night he was reported to be better. He continued about the same till at 1:30 Thursday morning he suddenly died without a moment's warning.

The death of Col. Bronston is a blow to his many personal friends in Kentucky, and a tearing of the heart strings to the beloved family. All the children but one were at the bedside. Col. Bronston leaves besides his widow six children. He also leaves a sister, Mrs. J. S. Dudley, of Chicago.

The funeral services of Col. Bronston were conducted at the Broadway Christian church Saturday morning by Rev. Mark Collins, assisted by Profs. B. J. Pinkerton and B. C. Hagerman.

Many Curios Lost.

At Lawrenceburg, Ky., the handsome home of A. C. Witherpoon, President of the Witherpoon National Bank, was destroyed by fire last week. Many valuable curios from foreign countries were burned.

Col. Moses Gibson Suicides.

Col. Moses Gibson, who served in the Confederate Army, committed suicide in Louisville Wednesday by drowning in a bath tub, after slashing his wrist with a razor. He was 72 years old and had been in the coal business in Louisville for many years, and is said to have introduced anthracite coal to the people of Kentucky.

Pardons Small Man.

If a small man living in the Commonwealth of Kentucky is attacked by a large man, then he has the right to defend himself with a knife, if necessary, was the substance of the opinion of Governor Willson in pardoning Chas. Carroll, who cut and wounded a Negro at Paducah last year. Governor Willson also pardoned Geo. Hartford, convicted as accessory in the murder of Hiram Baker.

DON'T RAISE TOBACCO

Is the Advice of Commissioner of Agriculture Rankin.

Commissioner of Agriculture M. C. Rankin declares it to be his firm opinion that the farmers of Kentucky should stop growing tobacco, and should turn their attention instead to raising corn, wheat and live stock, to the end that the State will become prosperous, the land richer and more fertile and the children better educated. This conclusion Commissioner Rankin has come to, he says, after nearly eighteen months of study.

"If the farmers will devote as much time and attention to the raising of the things I have suggested as they have to growing tobacco, it is my belief that in years to come Kentucky will be the richest State in the Union. There is no better land and soil in the United States for crop and stock raising. If I had been fortunate enough to learn when a young man, what I have learned since I have been in this office, I doubt if there ever would have been a crop of tobacco raised on my farm."

"Farmers can make more money if they turn their attention to stock raising. Tobacco has been raised so long and constantly in the Blue Grass counties of Kentucky that the soil has been soured and impaired, and with treatment it can be brought back to a good quality, and that is what I am going to do with my land. Therefore I say, no more tobacco for me, but it will be stock raising in the future."

Commissioner Rankin owns one of the most valuable farms in Henry county. He would not raise any tobacco on it this year; were it not for the fact that he bound himself by agreement to permit a few acres to be planted by a tenant. There will be but six acres planted on the farm, and much of the land that has been used for the burley weed in the past will be plowed in May, harrowed and worked just as if were being cultivated, until August, when it will be sown in alfalfa. In this way Mr. Rankin expects to get a good stand of alfalfa, and then he will begin raising stock and continue at it throughout the remainder of his farming career.

Commissioner Rankin believes that much of the illiteracy in Kentucky can be traced to the growing year after year of tobacco. Children are taken out of school in the early spring, he says, to assist in the planting, when they should be studying their lessons. If corn and wheat and live stock were grown it would not be necessary to take the children from school before the regular school term was out.

Commissioner Rankin is one of the original organizers in Kentucky of the American Society of Equity, and was at one time a leading official of the State branch of the organization.

High Price for Hogs.

A car load of hogs sold at the Cincinnati Stock Yards last week at the highest price in seven years. The car load of "select shipper" averaged 295 pounds each, and brought \$7.15 per hundred pounds. This made each hog sell for \$22.50. The highest previous record was made in September, 1902.

\$1,000,000 Error.

Because of a mistake in addition in the Assessment recapitulation sheet for Fayette county, the total amount of property in that county was returned at a figure one million dollars less than the correct amount, as was discovered Tuesday at a meeting of the Board of Equalization.

Was Born April 12, 1777.

Monday, April 12, was Henry Clay's birthday, he having been born April 12, 1777.

Among those who have become shining marks in our State, Henry Clay stands easily at the head. And in the Nation he had few equals and no superiors.

From his early manhood he was our leading citizen; and always a statesman of National ideas. He made Lexington and Kentucky prominent in the issues of the day. He was substantially the founder of the Whig party, with whose fortunes he was identified as long as he lived. And the Whig party expired very soon after its distinguished leader.

Abraham Lincoln said: "I learned my political principles largely in the school of Henry Clay. And the Republican party largely succeeded the old Whig party."

Mr. Clay died June 5, 1852, being a little over 75 years old.

Decoration Day May 31.

Orders from Department headquarters of the G. A. R. direct that Decoration Day exercises shall be held on Monday, May 31, by reason of the 30th, the regularly appointed day, falling on Sunday this year. The day has not been observed heretofore when coming on Sunday, and the same policy will be observed this year.

For Better Conditions.

A State wide movement looking to better sanitary conditions and more cleanliness was launched at a joint meeting of the State Board of Health and the State Federation of Women's Clubs held in Louisville Saturday.

Mrs. Caroline Bartlett Crane, of Kalamazoo, Mich., will deliver a series of lectures in Kentucky. The time of her itinerary has not been fixed.

Some Queer Laws.

Texas has some freak laws on the statute. Hotel keepers must have sheets nine feet long on the beds, another law makes it a felony for a man to take a drink or play a game of cards on a train, and the latest is a law which requires people to give ten days public notice before getting married.

To Work Roads.

Warden Mudd, of the Frankfort penitentiary, has under consideration a plan to have all prisoners under sentence of two years or less put to work on the roads, while the long terms are kept at work inside the prison walls. He would have them distributed in camps to the counties. He thinks that under this plan Kentucky would soon have the finest roads in the country.

The New Lock.

Bids for the construction of Lock No. 13 on the Kentucky river at Willow Shoals, Lee county, will be opened in Cincinnati on April 23. Work will begin during the summer. Likely the lock and dam will be completed in two years. The lock will be from 375 to 400 feet in length, and it is estimated that it will cost \$325,000.

Dr. Roark Dead.

Dr. Ruric Neville Roark, President of the Eastern Kentucky State Normal School at Richmond, and one of the most widely known educators of the day, died at his 50th year at noon Wednesday at the Good Samaritan Hospital in Cincinnati, where he had been under treatment for the past three months, suffering from a general break-down due to overwork.

There was a heavy fall of snow Wednesday in some portions of Wisconsin.

DISTRESS FROM UPSET STOMACH.

Also Misery from Indigestion Vanishes 5 Minutes Later.

Take your sour stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 22-grain Triangle and see if within five minutes there is left any trace of your stomach trouble.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak; there is lack of gastric juice; your food is only half digested; and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in the bowels, tenderness in the pit of the stomach, bad taste in the mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin. 35-41.

Death of Mrs. McManis.

Mrs. Emma McManis, wife of W. H. McManis, died Friday, April 9, at her home in Winchester, aged thirty-nine years. She leaves a husband and three children. Before her marriage she was Miss Quisenberry, of our city, a daughter of Benjamin Quisenberry.

Accepts Call to Florida.

Rev. George W. Shepherd, of Winchester, has accepted a call to the pastoral charge of the Baptist church at Lakeland, Fla., and will leave in a few days for that place to reside. He was until recently pastor of the Baptist church at Richmond, but resigned to work as an evangelist.

Charged With Operating a Moonshine Still.

Geo. Cheek and Sam Owens, who were captured at Pigeon Roost, Clay county, by Deputy Collector, F. P. Elliott, and Deputy United States Marshall, G. C. Thompson, and lodged in jail at London, were tried Wednesday before United States Commissioner Moyre and held over for final trial at the May term of the United States District Court on a charge of operating a moonshine still.

Sure He Will.

Sam Stairs, of the Dover News, says: "We planted an onion bed of onion sets one day last week. They are already up. Somebody's chickens scratched them up. We have planted them again. If they are scratched up again we will plant the hens next time and let the onion sets scratch them while. We feel sure that Gov. Willson will pardon us before trial."

One Hundred Car Train.

A record train for the Big Four system was hauled from Paris, Ill., to Terre Haute, Ind., when one engine brought an even 100 cars the 21 miles in 85 minutes. The cars were empties, 60 of them coal cars, 37 box and 3 flats. The train was six cars more than a quarter of a mile in length. The train weighed 1,714 tons and had a carrying capacity of 4,000,000 tons.

A Rich Haul.

The Southern depot, also used as the office of the Adams Express Company, at Eckert, Ky., was robbed last week and \$2,000 in cash, together with a typewriter, was taken. Five suspicious-looking characters, who had been around Eckert, are suspected of the robbery, but they have not yet been apprehended. It is said they came east from Eckert over the road.

Save Your Fowls.

Mrs. J. D. Cox, Lawrenceburg, Ky., the noted breeder of Mammoth Bronze turkeys, says: "Last September Mrs. R. B. Sweeney called me over the telephone and told me that her turkeys were all sick and several of them down and unable to travel. She said she believed she was going to lose the whole flock and asked me if I could do anything for them. I sent her a fifty-cent bottle of BOURBON POLTRY CURE and told her how to use it. She never lost a single turkey and they were all sound and well in a week's time. I have been raising fancy poultry for fifteen years and find this remedy the best I ever used. I have a hundred turkeys and I give them BOURBON POLTRY CURE twice a week and never think of such a thing as having a sick fowl."

BOURBON POLTRY CURE works alike on Chickens, Turkeys, Ducks, Geese and all the fowl family. A few drops in the drinking water keeps them healthy and free from disease. Sold by W. S. Lilly. 45-47

PEOPLES' BREAD.

That one man held the world at his mercy is certainly an amazing situation. But something of this sort is happening today in the Chicago wheat market, where Paten promises to be the dominant force, and is wielding the power of his million to control the wheat supply of the country in order that he may add to his wealth.

Paten has no use for the wheat he is cornering. He will never see a grain of it. His own labor has not produced a single head of the golden life substance; but his money enables him to hold it at a price that must inevitably result in hunger and suffering for tens of thousands of people.

In the great city where this thing is being done are multitudes to whom the difference of a cent in the price of bread is vital. Throughout the world these multitudes grow to an enormous aggregate. It is conceivable that the hour may come when not a few of them will go hungry because of the Paten deal. There is plenty of wheat for their consumption. The trouble lies not in its lack. One man is the cause of the trouble: one man who sees a chance to increase his own already big fortune at the expense of his fellows.—Louisville Post.

THE LATEST.

It is reported from Fransfort that a coalition has been formed by Senator Thos. A. Combs, of Lexington, and ex-Gov. Beckham for the purpose of inaugurating a campaign for State-wide prohibition in Kentucky, to elect this fall a Legislature pledged to State-wide prohibition, with Combs a candidate for Governor and Beckham for U. S. Senator to succeed Senator Payton.

The Democratic party has given to Kentucky whatever of temperance legislation there now is, and so far as we can see, judging from the present Republican Governor's stand, the Democratic party must be looked to for suppression of the liquor traffic.

C. C. GOSSE WITHDRAWS.

In the Democratic of the Ninetieth Legislature. After a canvass of the District. I have concluded that the best interests of the Democratic party will be served by not making the race for the Democratic nomination for the Legislature at this time. In the interest of harmony, I therefore withdraw from the race and take this opportunity of expressing my sincere gratitude to the many friends who encouraged me by offers of support.

My withdrawal is in the interest of no candidate, but after the nomination is made, my services are at the command of the Democratic nominee, whoever he may be. Respectfully.

C. C. GOSSE.

SENATORIAL PRIMARY.

The Democratic Committee of the 99th Senatorial District, Bourbon, Clark and Montgomery, have called a primary election for June 15. The expense was fixed at \$10.00. Persons desiring to enter the race must announce by Friday, April 23. Hon. Claude M. Thomas, of Paris, is the only announced candidate.

A SUCCESS.

Last week about 3,000 gallons of oil were spread on our streets. It is a great success. On Monday (Court-day) in the oil section there was NO dust, although there was considerable wind. Very heavy rains fell Monday night.

Waterproof Shingles. Shingles are now made under a patented process from asbestos fiber as Portland cement. Owing to the enormous pressure under which the shingles are manufactured, it is said that they absorb, when fresh, only about five per cent. of their weight of water, and when exposed to the atmosphere for a year or two that hydration and subsequent crystallization make them absolutely impervious.

Appropriate to the Occasion. During the singing of a hymn that starts "Happy birds that sing and fly" a thrush flew down from the roof of St. Peter's church at Richmond, Virginia, and settled on the hymn book held by one of the congregation.

LARGE CROWD IN ATTENDANCE.

The Annual Show of Stallions took place on Monday and was one of the best that we have ever had. A large crowd attended and enjoyed the exhibition of a very fine lot of horses. The saddle horses predominated largely.

TREE HOUSES OF THE PAPAUS.

Cool and Clean, But Not Built for Semnambulists.

The famous tree houses of Papua are rapidly disappearing before the march of civilization and settlement in the colony.

The tree house—a neat and well built habitation, placed at an enormous height among the branches of a forest tree and reached only by a swinging ladder—was primarily intended as a refuge from enemies. Now, however, that the government has brought the wild tribes under control the native prefers to live in a house that demands less skill in construction.

There are still many tree houses to be seen, though few or none are being built. In the northeastern district of Papua (where much valuable sugar, rubber and coconut land lies ready for taking up) the government officials on their regular tours of inspection often sleep at night in the house of some hospitable native village constable, who draws his ladder up at sundown to a doorstep 50 feet high in the air.

These tree houses are exceedingly cool, clean and picturesque, with the roofs of native made thatch and walls and floors of wattled tongs.

AGE NO MARK OF DISCRETION.

New York Police Statistics Prove a Most Lamentable Fact.

A woman shoplifter who had passed the Palmist's record period, and who had a long record of offenses behind her, was sent to prison again the other day, and in the printed accounts much was made of her years, as if age and misdemeanor were strangers. As a matter of fact, among women, youth and dissipation are strangers. If we make the test of the matter the fact of falling into the law's clutches.

More than half the women offenders of New York are classified in the report of the state prison commission as "middle-aged or elderly women." Of the 6,644 women sentenced to the Packer's Island workhouse during the last year, 3,465 were more than 30 years old. About one in 15 of the number were legal minors. Disorderly conduct and public intoxication accounted for all but a few hundreds of the entire number.

There is really no surprise in these figures, for the spectacle of gray hairs without honor is not unfamiliar in any of our small parks. It would be superfluous to point the moral—and Horace has done it already in his warnings to Lalage and Chloe.

No Drums in the Middle Ages.

As we come to the Middle Ages, when the nations of modern Europe were struggling into existence, we find that at first, the drum was not used at all. So, although melody had been known and practiced for many centuries, rhythm had been quite forgotten. For what there is left to us of the music of the Middle Ages contains no bars, and we know that it was slowly and monotonously chanted, without the least accent.

In the eleventh century, however, things began to improve, more particularly as the Crusaders brought into Europe all sorts of percussion instruments from the east. Various kinds of drums, tambourines and cymbals were then seen in Europe for the first time since the days of savages, and they have been used, with very little change, ever since—St. Nicholas.

How Ono Got His Name.

"An example of a curious Christian name may be found," says a correspondent, "near your offices than most of the cases you have printed. The facts are these. The father of a boy baby wished to be christened Thomas. The mother favored the name of Robert. When they arrived at the church the matter was still undecided. The father insisted the curate that the child's name was Thomas."

"Oh, no!" gasped the mother distressfully.

"The curate regarding the woman as the ruling spirit promptly baptized the infant Ono."

"The grave of Ono Titchener is to be seen in the churchyard of St. Giles, Camberwell."—London News.

Had All the Symptoms.

The learned hobo was dispensing knowledge for the benefit of his less enlightened companion.

"Have you ever been bitten by a dog?" he asked.

"Many a time," replied the unenlightened one.

"Are you not afraid of hydrophobia?"

"Nix on de hydro."

"Tis a curious disease. When a person contracts hydrophobia, the very thought of water makes him sick."

"Is dat on de level? Youse ain't stringin' me?"

"It is a scientific fact."

"Den I bet I've had it all me life, an' never knowed wot de matter wid me!"

One Way He Could Help.

An eastern college graduate applied for work in a Michigan lumber camp. He was told to get busy on one end of a cross-saw, the other end being in charge of an old and experienced lumberman. At first all went well, but at the end of the second day the young man's strength began to wane. Suddenly the old man stopped the saw and spat.

"See," he said, not unkindly, "I don't mind yer ridin' on this saw, but if it's just the same to you I wish you'd keep 700 feet off the ground."—Everybody's.

IN THE TOILS OF INFLUENZA

Unlucky Pittsburgh Citizens Compare Notes in Strange Language.

When two Eastenders met at a crowded downtown on a recent Sunday morning and engaged in conversation the other passengers were under the impression for a time that they were listening to a discussion in Esperanto or to Volapuk. It ran something like this:

"Bordig, Joid."

"Bordig, Jid."

"Bordig, Jid."

"Yes, dice bordig"—dot."

"Where's he?"

"Not a thing. Adhig, dew id you fide?"

"Dot a blabed thig."

"How you feelig this bordig?"

"Od de ind."

"So ab I. Dearly adered by head of last light."

"Sole here."

"Gid to the bevig todlight?"

"Dot on your tidtype. Gid to stay bhe ad d'it rub and hody."

"Good gale. Iud rub pudich fide."

"Well, here we are dowed. Se log."

And they ended their dismal way—Pittsburgh Times.

DUELS AMONG SUDANESE ARABS

Where Pastoral Life Doesn't Always Lead to Peace and Quiet.

The country to the southeast of Tekar, in Africa, is the home of the Haasas, the Hadendosa, the Khoros to the south and the plateau to the southeast. Both of these are black Arabs, speaking different languages.

The Haasas live almost entirely on sour milk, while the Hadendosa are agricultural as well as pastoral. Their stock and durra, milletlike grains were ripening in February and being protected from countless swarms of small birds by men who stood on elevated platforms, from which they cracked loud large whips with palm leaf lashed 20 feet long.

The dress of these Arabs is a cotton sheet held in by a belt in which they carry crooked knives. For other weapons they use sticks, spears and swords. Firearms are prohibited. Judging by the many scars borne by the men the pastoral life is by no means so peaceful as the poets would lead us to think. Many of the scars come from duels, in which the men cut each other alternately in the neck till one cries "Enough."

Hash.

Some people find fault when eating hash because they don't know what it is. Such souls are simply trying to dodge happiness. Would anybody ever start upon a journey if they knew the cars were going to leave the track, or that the bridge was sure to collapse? No, indeed. Would lovers of hash ever order that most wholesome viand were it not for the delightful uncertainty attached to it—the compelling mystery in which it is wrapped?

Why be wise when perfect happiness lies in ignorance? Has has stood the test of time, and whatever it is made of, history has yet to place a casualty at its door. Wine has caused the head to rise above the church steeple; pie has ruffled the digestive apparatus and hot blentics have brought the price of nightmares down to a surprisingly low figure; but hash, plain, roasty, inoffensive hash, has none on record the nose and left nothing in its wake but a fond memory and a sweet taste in the mouth. Why worry?

Phenomena Aweed Europe.

Europe and Asia were covered by fog during the summer of 1921. Says Gilbert White (letter 169): "The summer of the year 1783 was an amazing and a portentous one. . . for, besides the alarming meteors and tremendous thunderstorms . . . the peculiar haze, or smoky fog, that prevailed for many weeks in that island (England) and in every part of Europe, and even beyond its limits, was a most extraordinary appearance. The heat was intense. Calabria and part of the Isle of Sicily were torn and convulsed with earthquakes." Cowper also refers to this phenomenon, in speaking of "nature, with a dim and sickly eye."

In and Out of Focus.

"I beg a thousand pardons," said the man with the strange eyes, "for not speaking to you the moment I entered the room. I will tell you why. When I enter a room it is almost impossible for me to recognize anybody for a few minutes. My eyes won't focus. When I was a child I had a serious illness. When I finally recovered, my eyes were in this condition, and have remained so ever since."

But just the same he noticed that when the waiter passed with the punch his eyes focused on it correctly every time.

The Kidnaps.

The increasing respect for children is beginning to make itself felt on all sides. Little boys and girls are no longer put off with careless words and second rate toys. They are studied with constant thought by parents, scientists devise their playthings, and literary and artistic "celebrities" make the books. Of these things modern children are not unappreciative. If they are growing hypercritical in some directions they are becoming very tolerant in others, and not infrequently they understand their parents' little shortcomings much better than do those humiliated "elders" themselves.—Philadelphia Record.

THINK OF IT!

Twelve Lawyers Agree While Serving As Jurors.

A NOVEL CASE.

One of the most novel cases ever determined in Kentucky was brought to a close Saturday, resulting in a verdict for the defendant, in the Montgomery Circuit Court, being the case of H. C. Clay, a lawyer, of London, Ky., against Harvey Riddell, a lawyer, of Denver, Colorado. The controversy arose between these two lawyers over an attempt upon the part of Riddell to settle a damage suit in Colorado wherein the plaintiff Clay sought heavy damages against one C. A. Findling, of that State, for the alleged alienation of his (Clay's) wife's affections.

Riddell being a friend of both endeavored to compromise it for the agreed amount of \$1,725. Clay contended that Riddell agreed to pay him this sum personally, while Riddell claimed it was to be paid by Findling. The latter refused to pay the amount and Riddell notified Clay to prepare his case for trial against Findling. Clay declined to do this and sued Riddell upon his personal liability. The case contained a number of technical and knotty legal questions and as the entire panel of the petit jury was engaged in the consideration of two felony cases, it was agreed that the sheriff might summon twelve members of the bar to act as jurors, and the following well-known local lawyers were selected, to-wit:

R. A. Clinks, R. G. Kern, Lewis Apperson, A. A. Hazelrigg, W. C. Hamilton, B. F. Day, C. C. Turner, H. S. Wood, C. D. Grubbs, J. G. Winn, Jno. A. Judy and C. F. Thomas. To increase the novelty of the case, the parties agreed that the Court would not instruct the jury, but that they should be judges of both the law and the facts. After hearing the evidence and argument of counsel, a unanimous verdict for defendant was returned.

Mr. B. M. Lee of Georgetown, Ky., represented the plaintiff, while Mr. W. R. White, of Mt. Sterling, represented the defendant. Counting the members of the jury, the presiding Judge, the parties, their attorneys and attorney E. W. Smith, who reported the case, there were eighteen lawyers engaged in the trial and not a single layman.

STOP AND CONSIDER

You believe Mt. Sterling is going to grow.
Many residents in New York City believed years ago that New York City was going to grow.

They saw the growth, believed it was coming, but just put off investing until the golden opportunity passed and slipped through their fingers.

Are you going to let this great opportunity pass without investing in at least one lot in Mt. Sterling, when you know it is going to grow?

You believe it is going to grow, and yet are you going to delay?

No.

Don't do it.

Never have it said you had the opportunity to secure a lot in Greater Mt. Sterling on such easy terms and such prices, and did not invest.

Speculate on at least one lot.

When the boom comes you will enjoy it, when you own real estate and see it raising in value, even while you are asleep.

Remember you cannot make money earn money, unless you invest.

It is hard to save money unless you have a place to put it.

Make real estate your savings bank—your savings cannot be stolen.

To the People of Mt. Sterling

In this issue of the Mt. Sterling Advocate I am presenting to you a new plan of owning real estate.

This plan enables me to sell building sites very easily and quickly.

Why?

Because the public find in this plan better opportunities to own real estate than they ever dreamed of having.

I want to meet the citizens of Mt. Sterling. I take this opportunity of inviting you, one and all, to come out to my Allotment on Richmond street and talk this proposition in my now famous Red Tent Office. You are welcome whether you purchase a lot or not. I want to meet you anyway.

Dismiss from your mind the idea that you must have a large amount of money in order to own real estate. Under my plan you do not.

Many persons defer, from time to time, investing in real estate because the sum of money they have on hand seems too little. Putting it off like that only keeps them back so much longer from success.

As little as \$3.00 per month, a sum which you now spend foolishly or waste absolutely, is all you need to start you on the road to owning Real Estate. Come out and let us talk the matter over together.

Burning Points to Remember

1. That Mt. Sterling is growing.
2. Many new homes are being built this spring in Mt. Sterling.
- That Mt. Sterling is the big trade center for a large section in Kentucky; that this section is going to grow more and more as this country is developed; that as this section grows so will Mt. Sterling grow.
4. Do not wait until Mt. Sterling gets some mammoth industry and raises real estate prices so high you cannot reach them in a balloon.
5. Buy now before the big boom comes.
6. Buy a lot and own a home.
7. Do not pay rent all your life.
8. Unless you make a start you will never own anything.
9. Every day that goes by, you are that much older and farther from a home.
10. You can pay for a home now, better than you can pay rent when you get older.
11. This is your Opportunity to Own a Home.
12. This is your Opportunity to be a Capitalist.

STOMACH AGONY

Abolish the Cause, and Misery and Distress of Indigestion Will Vanish.

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness, sour stomach, fullness, nausea, shortness of breath, nervousness, bad taste in mouth, foul breath and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-o-na, the mighty dyspepsia remedy that cures by removing the cause, they would go this very day and get a large box of Mi-o-na tablets.

The price of Mi-o-na tablets is only 50 cents, and W. S. Lloyd guarantees them to cure indigestion, or money back.

Thin, lean or scrawny people will find in Mi-o-na a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food.

Poultry Notes.

Chicks in April means eggs in December.

April showers—look out for dampness in brood coops.

Duck eggs hatch better when there is swimming water at hand.

The color of the newly hatched chick does not always indicate what the mature plumage will be.

Are you satisfied with the returns from your poultry? Possibly the reason why you are not is because you have been giving them indifferent care.

Keep the brooder warm enough to prevent the chicks from huddling together.

A good coop can be made from a dry-goods box turned on its side, but don't forget to raise it an inch or so from the ground.

A very tired chick loses much of its vitality. Never turn the hens and chicks loose and let them trail over miles of space before they are old enough to stand so much exercise.

If you desire to raise incubator chicks with hens place one or two little chicks under each broody hen at night and in the morning they will be ready to take them all.

For mites insect powder is of little avail. If you want to see them die quickly apply thin white wash with the spray pump and don't miss any of the crevices.

Take time when feeding each day to watch the chicks and if any of them seem to be ailing remove them. They need special attention and a chance to get well and besides the health of a whole flock is endangered by leaving a sick chick with them.

Sometimes hawks and crows can be frightened away by a good sized flag of some bright colored material put on a pole near the chicken coops.

Have you introduced oats into the bill of fare for your chicks? Oats in some form gives vim to the chickens, old and young. We like the steel cut oatmeal for the little fellows the first few weeks.

The feeding of beef scraps of meat in some form helps to keep the Leghorn chicks' feathers from outgrowing their bodies. Sometimes they seem to feather out too soon and die from consequence exhaustive drain on the system. A meat diet three or four times a week helps to keep the growth of their bodies up to that of their feathers. However, we are very careful in the use of beef scraps. It must be sweet and clean. If it smells bad, sick chickens will follow its use.—Inland Farmer.

WORK WEAKENS THE KIDNEYS.

Doan's Kidney Pills Have Done A Great Service for People Who Work in Mt. Sterling.

Most Mt. Sterling people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or carts—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood.

Doan's Kidney Pills cure sick kidneys, put new strength in bad backs. Mt. Sterling citizens prove it.

H. W. Willoughby, W. Loepert St., Mt. Sterling, Ky., says: "I strained my back in doing some heavy lifting about two years ago and from that time on until I procured Doan's Kidney Pills at F. C. Duerson's drug store, I was in a miserable condition on account of a lumpiness in my back. I could scarcely bend over or regain an erect position and I lost one whole season's work on account of this disease. Some times my back ached so severely as to be almost unbearable. I used different remedies but did not find relief until a friend finally recommended Doan's Kidney Pills. By the time I had taken the contents of three or four boxes I was a well man. I have not had the least sign of trouble with my back or kidneys since. I am glad to give a testimonial in favor of such a reliable remedy as Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. 41-21

The First Encyclopedia.

THE VERY BEST.

Have any of our readers seen a recent copy of the Cincinnati Weekly Enquirer? If not, it will pay to send for a copy, if for no other purpose than to note its present grand worth as an educator in all things that tend to make life prosperous, and home, the happiest place on earth.

The editor by asking its readers to criticize and suggest improvements; and following advice thus obtained is enabled to produce a paper that exactly fits needs of a family and a material aid to father, mother and children in reaching that higher level in social life, where content and comfort reign supreme.

Father obtains ample information that guides in the where, when and how to regulate and increase the income from his efforts. The mother in management of household affairs, practical economy, government of children, and other duties of life, and encouraged to emulate that is helpful in planning for a useful future.

The Grand Idea being that: "As are our Homes, so will be the Community, State and Nation."

A most desirable help, is a non-sectarian sermon each week, as preached by that Biblical Student Pastor Chas. T. Russell; a forcible reminder of the spiritual and temporal rewards gained by righteous living as preferable to a Godless life that brings naught but misery to the home.

Other departments and features are above the ordinary, the unanimous verdict of its readers being: "The cleanest and best family Weekly known to men."

CORSETS IN ANCIENT GREECE

A Playwright Says Cycling Skirts Were Also Common There.

The discovery has been made in Paris recently, that the Greeks 2,000 years ago wore corsets and other articles of modern feminine dress according to the Paris correspondent of the New York Times. Mme. Paquin and Jules Tholozan disclosed the fact in the latter's play, "La Parole," at the Comedie Francaise, for which the famous dressmaker designed the costumes after consulting some of the oldest records. Jules Tholozan said: "There is really nothing new under the sun. The ordinary conception of Greek dress refers only to certain periods. I knew what I am talking about."

"I have studied the works of Schliemann on Mycenae and of Perrot and Delort on the polytheistic age. I have made excavations at Knossos in Crete. I have visited numerous. I don't imagine the things I write about. The Greeks of the middle age period had modern fashions. This is the point I insist upon. Look at the statues of the women, ancient Greek vases and sculptures and you will see no ribbons, crinolines, head-dresses, basques and corsets. The cycling skirt was the usual mode at the court of Agamemnon."

To prove his point M. Paquin had photographs of old sculptures and vases. These are extraordinarily like the modes of 1860. From these Mme. Paquin made the costumes for the play.

Of course, this upsets popular ideas about Greek dress, and probably a musical play showing Ulysses in pajamas and Leda in a basque will be produced on the legitimate stage.

VERY EVIDENTLY HIS FIRST ONE.

Young Man Was Proud Parent, and Didn't Care Who Knew It.

There was no birth in the corner drug store. The young man at the phone there could be heard by all the customers who ranged about the soda water fountain. His face beamed as he talked.

"Everything is all right," he was saying.

"Mam?"

"Yes. Eleven pounds. Beautiful boy. Like me, they say."

"Mam?"

"Yes. Nothing quiet. Would have sent for you, but thought it best not to. Didn't want to worry you."

"Mam?"

"Yes. I'll attend to all that."

"Mam?"

"Yes. I'll tell her you're coming down right away. Beautiful boy."

"Mam?"

"Yes. Eleven pounds and looks just like me."

He rang off and walked proudly out of the drug store apparently oblivious of the smiling countenances of his interested listeners ranged around the soda fountain.

Vintage Nicknames.

We have nicknames for the vintages which few persons except the wine drinkers know. Thus the vintage of the present year we call Zeppelin, in honor of the air navigator's achievement and because it is so high. Records show that these nicknames were bestowed on vintages as far back as 1528, when the bad-watered wine was called "Fogalio."

The year wine of 1860 was called Gaidfield, and in memory of the Chinese wine the 1861 wine is still known as "Widowhood."

The vintage of 1896 promised much and gave little, and was nicknamed Li Hung Chang, and another nickname for the same year was, "Moxy," was given because the wine was taken from the water principally.—Muncheater Northcote.

Old and New.

The penny—or two-cent—post between England and America is a new and at the same time a very old thing. It is over 200 years old. It existed in 1688.

In those days shipmasters crossing the Atlantic either way were very apt to carry letters and messages. A week or two before their ships sailed they would hang up their boxes in coffee houses, and all letters dropped into these boxes were carried over seas and faithfully delivered at the rate of a penny, or two cents, apiece.

Brilliant Project Brought to Naught. In the year 1684 William Patterson, founder of the Bank of Scotland, conceived the grand project of planting colonies on the isthmus of Darien a British colony which, in his own words, "should secure for Great Britain the keys of the universe, enabling their possessors to give laws to both oceans and to become the arbiters of the commercial world. This colony was actually founded at a place still known as Puerto Barrios, but his people were subsequently forced by the Spaniards to evacuate and return to Scotland."

How Little We Know

of what is ill or. well in clothes

How few stop to think of what a great difference a little reasoning on the problem of clothes buying would make in their appearance or their purse. Come down to form. Take the past years or the work of WALSH BROS'. Store, in the clothing field for a guide, compare every point of merchandising, and then draw your own conclusions as to who is in the best position to serve you and serve you intelligently in the affairs of dress. WHY, SIR, you can take all the good points of all other makes, boil them down to your own notion, then come here and we will show you that the garments we are offering contain all the good elements of all good clothes and an individuality of their own, which sets them apart from anything yet attempted by other stores.

The Clothing Business

with us is not a venture; it is no longer an ordinary exchange for gain; it has reached the point of art. The men today who design the styles of our clothes portray the beautiful colorings of the master painters and lend the touch and tone of the composers to their work. This and more may be of no consequence to you, but has built a business for us that will endure. The fact of our clothes is spreading, spreading to you, some day maybe, today, you will realize and pass it on. Intelligent clothes buying, intelligent clothes selling, reads—SATISFIED CUSTOMERS.

Boys' Suits

On the balcony in the boys' store where correct styles, elegant assortments and all sizes from 2½ to 18 years in short pants suits assures the mothers of boys that they may be suited without the usual shopping from place to place. Suits from

\$2.50 to \$12.50

We are the sole agents for Manhattan Shirts, Wilson Bros. Furnishings, Interwoven Hosiery, Parker and Finn Waistcoats and Auerbach's Neckwear.

Shoe Excellence

is found in the J. & M.—"one of the points." All J. & M. oxfords, or low shoes, as you may call them, are made on special low lasts, something that no other manufacturer of shoes has ever done. This insures to the wearer a perfect fitting, close hugging ankle, giving the foot that trim look which only J. & M. shoes can give. J. & M. shoes cost no more here than other good shoes.

Eclipse and W. L. Douglas spring styles now on sale.

The Knox Hat

getting acquainted. The Knox Hat is growing in this community. The style of Knox Hats has always been sought by smart dressers. The quality of Knox Hats is now making itself felt. Knox knew that nothing would have the effect but felt. Hundreds of customers will have nothing but the Knox. Come early and see the styles, as they are going fast.

John B. Stetson's complete line of soft and stiff Hats now ready.

Highest qualities and best styles in Hats always found here.

Quality Only Fair.

TRADE WAS A LITTLE SLOW.

About 1,500 cattle on the market. The quality was fair, trade a little slow. The best 1,000-lb. steers sold at 5c and a premium, bulk of sales at \$4.50 to \$4.75, with some sales as low as 4c.

Yearlings were booming, some selling as high as 5½c, but the prevailing price was 5c for good straight ones, the lower grades selling at 4c to 4½c.

Heifers at 3½c to 4c. Cows at 3½c to 5½c. Old cows and rough oxen at 1½c to 2c.

Only a fair size crowd at the pens and buyers a little slow to take hold. The question now on the farmers' mind, is to find grass for the stock he has already on hand. We never saw grass as short on April 20.

We caught a few sales that will show the range of prices:

O. H. Chennault, of Lexington, bought 25 500-lb. yearlings at from 5c to 5½c.

Jas. Arnett sold 7 1,050-pound steers to D. C. Cleveland, of Cincinnati, at 5c and \$1.00 on head.

A. B. Barnett sold same party 3 1,200-lb. steers at 4c.

Geo. Halsey sold a bunch of 500-lb. yearlings to O. H. Chennault, of Lexington, at 5½c.

Ben Murphy sold 12 500-pound heifers to Hiram Long, of Clark county, at 4c.

Green Allen sold 10 350-pound steers to D. C. Cleveland, of Cincinnati, at 5c.

G. W. Raborn, of Clark county, bought 10 1,000-lb. steers at 4½c.

B. K. Duckworth sold 4 900-lb. steers to D. C. Cleveland at 5c and a premium.

Kenner & Henry, of Carlisle,

bought 40 cows—29 dry and 20 springers—at about 3½c.

HORSES AND MULES.

Not a great many mules on the market, but prices were about as last court. Some heavy mules selling at \$200 with good weight 15½ hand mules at \$165 to \$175; small mules at \$110 to \$125.

Horses were brisk and a good many changed hands. Mr. Sterling Stock Yards sold 10 horses last week at prices ranging from \$150 to \$200 with one nice mare at \$300.

For Sale or Rent.

The Peters place of about 40 acres is for sale. If not sold by March 1st we will rent it.

32½ H. Clay McKee & Sons Co.

Deputy Sheriff Sent to Jail.

Convicted of tampering with Javor W. Dowd during the trial of Eugene Gardner, who was recently acquitted of murdering a negro named Carloza in the Arctic Seas, Deputy Sheriff Charles Schu was sentenced to four months' imprisonment by the Circuit Court at San Francisco, California, April 16.

Schu's sympathies were with the young Kentuckian, but it was not implied by the court that the defense was remotely connected with his activities to clear the youth. Schu stated that he acted on his own volition after incidentally learning that Gardner was a respectable young man who bore a good character.

Hitch and Feed Stable.

Hitching, 5c; feed hay, 20c; corn, 1c per ear, except on public days. Feed wanted. Hay for sale at 60c per bale. CHAS. LONG, Cor. Bank and Locust streets, 38½

We butcher nothing but the best beefs, consequently you can get the best steaks and roasts from 40-2½. Vanarsdell & Co.

FACTS AND OBSERVATIONS

ON THE EARTH AND UNDER THE EARTH.

The writer spent Wednesday, Thursday and Friday en route to and in Morgan and Breathitt. The L. & E. is preparing for the summer tourists at Natural Bridge. A long line of permanent seats was being installed. Flower beds will add to the natural charm.

We spent first night at Caney. Jno. G. White, is redrilling or testing oil wells above Caney. Near to the home of J. Frank Lykins a new distillery was that day making its first run. It is a three bushel affair. We heard intimations that the output would be sold to supply the local demand in this local option county. Possibly on next trip we will hear of grand jury reports.

We had heard of the famous Hurst Cannel Coal on Frozen, now owned by M. C. and J. Will Clay, of our city, and W. C. Taylor, of Clark. The mine is three miles from Wilhurst Station. We wanted to see the sights. A narrow gauge road connects the mines with the station and the cars are drawn by an engine. As the engine was being prepared on Thursday morning we engaged a horse for the trip. Enroute we met Mat Clay, who returned to mine. Several tons of coal have been stacked and workmen were engaged in driving other entries preparatory for prompt service when the season opens. The vein is from 4 to 6 feet and is composed of cannel, semi cannel and bituminous and is of superior quality. Not many men can see through a hill. The prospects are flattering for a vast field for many years. We saw how it is done where the light of day enters not. We have read of light, darkness and deeds, but in this case the rich treasures

of God for man's use and profit are of necessity shrouded in darkness and man must go after them. We took dinner at the Taylor Hurst home, where Clay boards. C. C. Gose is in charge of the office, Bruce Taylor looks after store at station and Mat Clay is director general, or rr.

When the wheels of industry are awhirl, the foliage in all its luxuriance and varied tints charm the eye and the songs of birds make music with rippling waters we will go again for rest and recreation to commune with nature. The latch string hangs out. Have you tried Kentucky Red Ash Cannel Coal?

How Girls Walk.

Between their short skirts and smart pumps the feet of the average young woman are extremely conspicuous just now, and passing glances at them reveal the fact that most girls and women do not know how to walk properly. Ninety-nine out of a hundred of them place the heel on the ground first, a trick that is not only dreary, but extremely ungraceful.

No Mustaches in Alaska.

Mustaches are not worn by men exposed to the severity of an Alaskan winter. They wear full beards to protect the throat and face, but keep the upper lip clean shaven. The moisture from the breath congeals so quickly that a mustache becomes imbedded in a solid cake of ice, and the face is frozen in a short time.

Modern Man and Charns.

Many a hard-headed business man will stop to pick up a cast horseshoe or a "lucky" writing, and is not a bit ashamed of the finds, but pockets them with great satisfaction, comments the London Crown. It is a fact that civilization has not improved as much in relation to our quaint beliefs, and charms and amulets are collectible and interesting curios.

Scarcity of Humor.

It is to be feared that if the papers reserved a special corner once each week for the witicism of the week, it would be often left blank. There is no wit to speak of today, only a feeble imitation of it which people are fond of calling the saving sense of humor. —London Saturday Review.

DEATHS.

LAUGHLIN.—The mother of Alphonso Laughlin, of our city, died at her home in Lexington on Tuesday, April 13.

HANEY.—J. H. Haney, aged 80 years, formerly of Morgan county, died at his home in this county on Tuesday, April 13.

SMITH.—Henry Smith, aged 39 years, son of Mr. and Mrs. Hood Smith, of Winchester, died with tuberculosis at Tucson, Arizona, on Tuesday of last week.

ANNEAR.—Mrs. Frank Annear, of Cincinnati, died at Georgetown on Thursday, while visiting friends. She was Miss Mae Wells, daughter of Rev. J. M. Wells, deceased, of the Baptist church formerly of our city.

BROWN.—Mrs. Clarence Brown, aged about 32 years, died at Shelbyville, Ky., on Sunday evening at 9 o'clock, April 18, 1909. She was Miss Mary Roe, daughter of Mrs. Bettie Roe, and a niece of Mrs. Wm. Withers, of Sharpsburg, and Mrs. M. E. Cassidy, of our city. Mrs. Cassidy and Mrs. Bruce Trimble went to Shelbyville on Monday morning. Mrs. Brown leaves one child, Dorothy, aged four years. Death followed an operation at hospital.

FASSETT.—J. W. Fassett died at his home in this city on Thursday, April 15, 1909. He was a native of Vermont and was born in August, 1927. He came to Kentucky at the age of 17 and located in Bath county. He moved to our city in February from his farm on Flat Creek. By his first marriage he leaves four sons, Tom, Lutrel, Roger and Lawrence and a daughter, Mrs. Mamie Mason. These with his second wife (nee Miss Emma Lane) survive him. He has held the office of elder in the Springfield Presbyterian Church for many years, where he will be greatly missed. A man whose advice was valued, a man of affairs, the place he has filled in the community where he was known and respected will long be vacant. The funeral was conducted at his late residence by Rev. H. G. Moody and Rev. H. D. Clark on Friday morning. The burial was in Machpelah Cemetery.

On Tuesday night, the 27, at the Court House, Gilbert A. Eldredge will present a widely varied, artistic and popular repertoire of costumed interpretations of a high order, changing quickly from humorous to pathetic, and from dramatic to sentimental representations. Everybody will enjoy Gilbert A. Eldredge more next Tuesday. This number in the Lyceum Course given by Messrs. Cord and Hopper is "an extra," and is offered especially to help pay the deficit incurred in the series recently given. Surely all who got the series for the low price of \$1.50 for the course will gladly attend this benefit number and pay the price of admission, 35 cents for adults, and 25 cents for children.

Narrow Escape from Serious Injury.

On Sunday afternoon Reid McKee, Chenaunt Cockrell, Fisher Mark, Misses Mary Robinson, Francis Robertson and Ethel Greene went to Oil Springs in an auto. Returning the young men left the car to attend to a scared horse attached to a buggy near the intersection of Oil Springs road with Kuldville pike; in some way the machine kept going, attained a high speed down a steep grade. Only Miss Greene remained in the auto, the others jumping. Her escape from death was wonderful. The machine uprooted a cherry tree, tore its way through the outer wall and partition of a frame cottage. Fortunately no one was seriously hurt. The auto goes to the factory.

A Child's Comment.
Even little children are amazed at the backwardness of New York. A high school student of five, crossing over from New Jersey and seeing the West street transportation relic for the first time, jerked her father's coat tails away off, exclaiming, "Oh, papa, see the trolley cars being pulled by horses!"—N. National Conversations.
If you see three men standing together on the sidewalk in any given country, you can guess the subject of their conversation. In Germany it is the army; in Russia (the bureaucracy); in France, women; in the United States, business; in England, sport; and in Turkey, nothing at all.—La Revue des Deux Mondes.

East and West.
There is no longer any doubt, our Shanghai correspondent tells us, that the old order of things which has guided the lives of countless millions in the Chinese empire through a long succession of centuries is passing away forever. The movement in favor of western education has become irresistible.—London Times.

Vitality in Brain Work.
Vital as is the physical side of conserving youth, its true fountain is in our brain. If we maintain activity of its cells it quickens the circulation of the blood, the vital organs, gives light to the eyes, preserves the suppleness of the body, removes to a distance illness, age, death itself.

Good Way To Do Business.

In ordering a 50c bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at 25c, W. S. Lloyd is giving one of the greatest trade chances ever offered to the people of Mt. Sterling.
If food does not digest well, if there is gas or pain in the stomach, if the tongue is coated and the breath bad, if there is constipation and straining, Dr. Howard's specific will cure you. If it does not you have druggist W. S. Lloyd's personal guarantee to return your money.

This remarkable remedy comes in the form of tiny granules, and can be carried in the vest pocket or purse. It is very popular in New York City, and it is not unusual to see someone after a meal at one of the large hotels or restaurants, take a dose of this specific, knowing that it will prevent the uncomfortable feeling which frequently follows a hearty meal.
Dr. Howard's specific gives quick relief and makes permanent cures of constipation, dyspepsia and all liver troubles. 41c & 5c.

Laying of Corner Stone.

The cornerstone of the new \$75,000 administration building that is to be added to the Old Fellows' Widows' and Orphans' Home in Lexington was laid on Thursday afternoon with appropriate and elaborate ceremonies.
Two judges of the Kentucky Court of Appeals were conspicuous in the proceedings. Judge John D. Carroll, Grand Master of the Order in Kentucky, laid the stone, and Judge W. E. Settle delivered the principal address.

Bands and banners and flags, street parades, music and song, lodge sessions, fraternal hand clasp, the smile of joy, and the bright April sunshine combined to make the event one of the most notable in the history of Old Fellows work in Kentucky, and the day and the occasion will become a monument to the members of this generation because of a supreme devotion to the interests of humanity.

Fully one hundred and fifty lodges and cantons were represented in the big parade that took place at 1 o'clock.

Great Industry.

The Democratic rooster has a right to crow over what he and his family are doing for the benefit of man. The poultry industry is increasing so rapidly it is hard to compute its value. Last year the egg and poultry crop amounted to \$600,000,000. Corn is the only farm crop of greater value.
The cost of eggs and poultry has increased much more rapidly than any other product, except bacon. Beef, potatoes, pork, mutton and butter have increased from 16 to 27 per cent.

Poultry has increased 37 per cent, and eggs 19 per cent. That is to the consumer. Nothing raised on the farm has had such an increase. On an average the farmers received for eggs in 1899 a little more than 11 cents a dozen. In 1907 it was more than 18 cents. During those years poultry increased from 11 to 15 cents. The cost of the farmer has increased materially. As before, the hens subsist largely on the waste of the farmer. Iowa's poultry product is worth \$25,000,000 and this is the great poultry State. Agricultural colleges are giving regular courses in poultry and are making experiments to increase the laying of hens. Ten more eggs per year per hen would mean much to the 18,000,000 hens in Iowa.

PORTLAND, MAINE, CHILD ILL.

Weak and Emaciated, Restored To Health by Vinol.

"Our little daughter, six years of age, after a severe attack of the measles, which developed into pneumonia, was left pitifully thin, weak and emaciated. She had no appetite, and her stomach was so weak it could not retain food. She lay in this condition for weeks, and nothing the doctor prescribed did a bit of good, and we were beginning to think she would never recover."

"At this time we commenced to give her Vinol, and the effect was marvellous. The doctor was amazed at her progress, and when we told him we were giving her Vinol, he replied, 'It is a fine remedy, keep it up.' We did so, and she recovered her health and strength months before the doctor thought she could." J. W. Flaggs, Portland, Me.

Vinol cures conditions like this because in a natural manner it increases the appetite, tones up the digestive organs, makes rich, red blood, and strengthens every organ in the body.

Vinol is sold in Mt. Sterling, by W. S. Lloyd, druggist.

Cutting Alfalfa in Bath.

On Easter Sunday Rich Maze, son of Jas. M. Maze; John Maze, son of Samuel Maze; Omar and Charles Cline, sons of Mrs. Sarah Cline, all of Polkville neighborhood, were at Knob Lick and on their return near Polkville got into a fight. Mrs. Sarah Cline interfered and was cut in the groin and the thigh. Rich Maze had the back of his skull fractured with a rock and in front with a beer bottle and was also cut to the hollow across the back. John Maze received a deep cut in the thigh. Both of the Cline boys were badly cut. It is said that Rich Maze's physician says he can hardly recover.

Hurt In Runaway.

While John Scott and Alfred Crooks, of Owingsville, were out driving Wednesday afternoon their horse scared and their buggy turned over. Both were badly bruised and Mr. Crooks suffered a severe sprain of the leg.

James A. Patten, the veteran wheat king of the Chicago grain pit, denied in an interview that he had a corner on wheat and declared his intention of getting out of the market. He ascribed the present rise in wheat to the natural law of supply and demand.

New Traction Line Proposed.

The proposed traction line for which incorporation articles were filed at Frankfort Tuesday will be one of the biggest things ever undertaken in Kentucky and will be of inestimable benefit to the State. Articles of incorporation were filed with the Secretary of State and the Railroad Commission for an electric trolley line which will connect Cincinnati, Louisville, Lexington and Maysville, making a network of lines embracing the richest section of Kentucky. The proposed road is to be built in two trunk lines. One will extend from Maysville to Louisville and the other from Cincinnati to Lexington.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood. 33-4t.

Not Guilty of Murder.

Eugene Gardner, connected with prominent Magoffin county families, was acquitted Wednesday afternoon at San Francisco of the charge of having murdered Joseph Cardoza, a colored boat steerer, of the whaler Bower, who was killed while on the vessel in the Arctic ocean.

The jury was out over 22 hours. Gardner's plea was self-defense. This was his second trial, a former jury having disagreed.

New Service for Jackson.

Sunday railway postoffice service has been established on the Lexington & Jackson line of the Lexington & Eastern railroad. This service will be of importance, as Jackson serves about forty smaller offices. Mail which heretofore has not reached the Jackson office in time to be distributed and go out Monday morning, now will be ready for this service.
